## Factors We Would Like To Emphasize About Our City

The Seminole Chamber of Commerce and the Seminole Area Industrial Foundation are ready to answer your questions about our community. Gaines County continues to be the number one oil-producing county in Texas, the number one cotton-producing county in Texas, and the number one peanut-producing county in Texas. Considering these factors and the large pool of skilled and semi-skilled labor available, along with several good industrial sites, we feel that Seminole is an ideal location to consider if you are planning to expand your business or begin a new one. The entire community is ready and eager to work with anyone interested in locating in this area.
